

### Exercise 1: AIRPORT MARKINGS

**Purpose** This exercise provides practice in identifying airport markings.

---

**Directions** Read each descriptive statement. Under the column labeled items, put the type of airport marking it describes.

DESCRIPTIVE STATEMENT	ITEMS
1. Runway numbers and letters determined from the approach direction.	
2. Consists of two rectangular white stripes, markings one on each side of the runway centerline and approximately 1,000 feet from landing threshold.	
3. Consists of a single continuous yellow line, 6 inches to 12 inches in width. Provides a visual cue to permit taxiing along a designated path.	
4. These signs have a red background with a white inscription and are used to denote an entrance to a runway, critical area, or areas where an aircraft is prohibited from entering.	
5. Areas not under control of ATC on the airport.	
6. Lighting circuits will be disconnected, and touchdown markings are obliterated and yellow crosses are placed at each end of the runway and at 1,000 foot intervals.
